

ACL ROBOTICS

Next-level data automation powered by Robotics

PUT ACL ROBOTICS TO WORK AND REFOCUS ON THE TASKS THAT REALLY MATTER.

What's holding you back from turning your data into a competitive advantage? The challenge is time. When you're focused on tackling time-consuming tasks like extracting and normalizing data, updating KPIs in spreadsheets, or chasing people to follow-up on exceptions—you can't also be focused on turning your data into action. That's where ACL Robotics can help.

Become more efficient by automating time-intensive and repetitive processes. ACL Robotics goes beyond any simple analytic solution or business intelligence technology, running your data access, reporting, and remediation tasks from beginning to end. It reduces the number of tools you need, provides data in real time, and frees up your time so you can focus on delivering insights that will have the greatest impact.

COMPARE YOUR OPTIONS

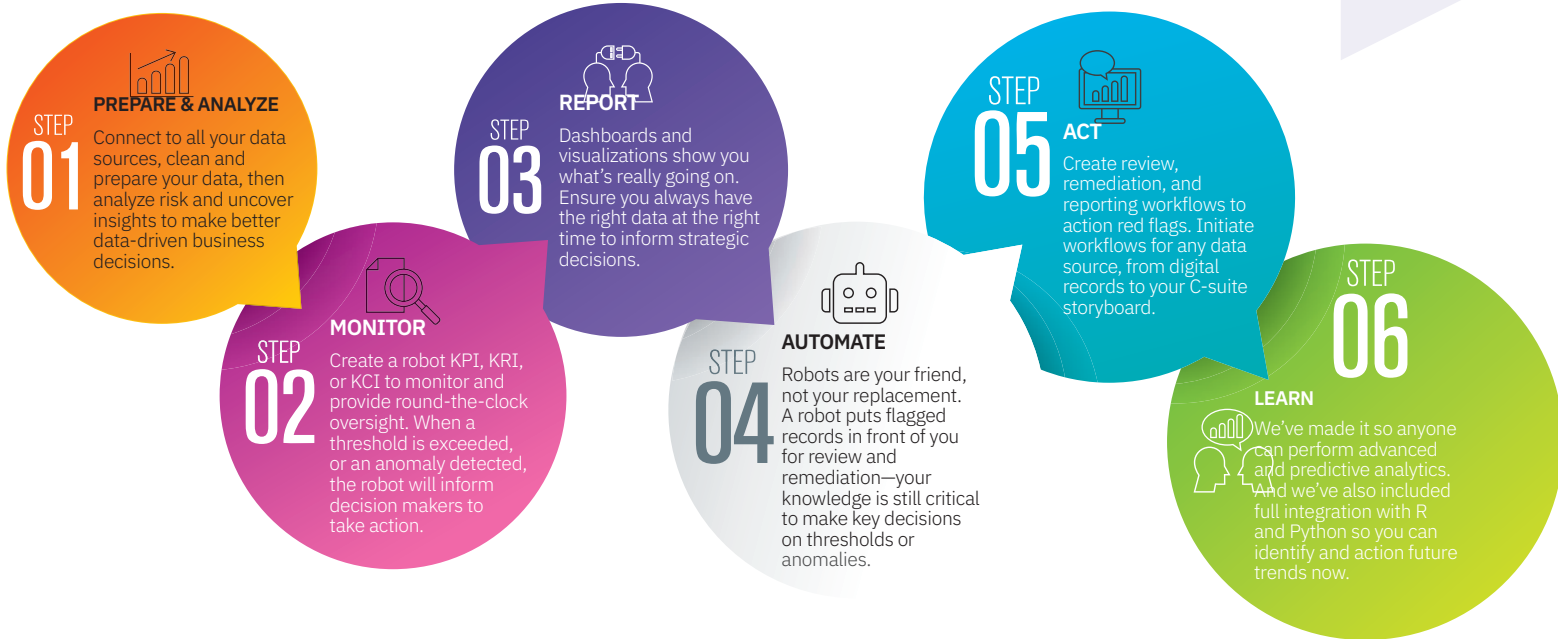

ACL Robotics is a fully scalable solution, designed so you can start small and upgrade as you grow.

 Professional Edition	 Team Edition	 Enterprise Edition
<p>Designed for small teams or individuals that need full analytic capabilities but aren't quite ready for full automation.</p> <p>Includes:</p> <ul style="list-style-type: none"> + Analytics + Unlimited script repository and versioning + Cloud data processing only + One automation process + Limited workflow capabilities for remediation + Limited dashboards 	<p>For small and large teams who need to maintain all their data on premise, including reporting and remediation activities, but want to automate processes.</p> <p>Includes:</p> <ul style="list-style-type: none"> + All the functionality of the professional edition, plus: + Unlimited robots for process automation + Unlimited script repository and versioning + On-premise data analysis and reporting 	<p>For large and complex organizations requiring full Robotics functionality for monitoring programs, better testing, and collaboration tools, and full dashboarding and workflow capabilities.</p> <p>Includes:</p> <ul style="list-style-type: none"> + All the functionality of the previous editions, plus: + Unlimited robots for process automation + Unlimited workflows + Unlimited visualizations and dashboards + On-premise and cloud data access support

Added benefits and resources

We offer a number of additional free resources and benefits to help you grow and nurture your use of the platform. On-demand Galvanize Academy courses with CPE credits, a robust global community with regional user groups, help docs, and other great resources can all be accessed through the HighBond platform as part of your subscription.

ACL Robotics is a fully scalable solution, designed to grow with you. Build robots to support you in one or all of the following areas:

How will you put the robots to work?

Audit	Compliance & Legal	Information Technology	Risk Management	Accounting & Finance	Public Sector
<ul style="list-style-type: none"> + Risk-based audit assessments + Enterprise risk assessments + Continuous auditing + Fraud identification 	<ul style="list-style-type: none"> + Anti-corruption (FCPA, UK Bribery, Sapin II) + Privacy and GDPR compliance + AML/ATF + Code of conduct 	<ul style="list-style-type: none"> + Segregation of duties, access control + SOX ITGC monitoring + IT Standards (ISO, NIST, COBIT) + Cyber KRI monitoring + Audit readiness 	<ul style="list-style-type: none"> + Enterprise risk assessments + Enterprise KRI and KPI monitoring 	<ul style="list-style-type: none"> + P2P, payables, payroll, general ledger, H2R monitoring + ICFR monitoring + Financial statement audit readiness + ERP process controls monitoring 	<ul style="list-style-type: none"> + Entitlement oversight + Fraud and improper payment monitoring + Audit readiness + Whistle-blower hotlines
