ACL ROBOTICS

Next-level data automation powered by Robotics

PUT ACL ROBOTICS TO WORK AND REFOCUS ON THE TASKS THAT REALLY MATTER.

What's holding you back from turning your data into a competitive advantage? The challenge is often time. When you’re focused on tackling time-consuming tasks like extracting and normalizing data, updating KPIs in spreadsheets, or chasing people to follow-up on exceptions—you can’t also be focused on turning your data into action. That’s where ACL Robotics can help.

ACL Robotics is designed exclusively for governance professionals to help make you more efficient by automating time-intensive and repetitive processes. It goes beyond any simple analytic solution or BI technology. ACL Robotics runs your data access, reporting, and remediation tasks from beginning to end. It reduces the number of tools you need, provides data in real time, and frees up your time so you can focus on on delivering insights that will have the greatest impact.

COMPARE YOUR OPTIONS
ACL Robotics is a fully scalable solution, designed to allow you to start small and upgrade as you grow.

<table>
<thead>
<tr>
<th>Professional Edition</th>
<th>Enterprise Edition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Designed for small teams or individuals that need full analytic capabilities but aren’t quite ready for full automation.</td>
<td>For large and complex organizations requiring full Robotics functionality for monitoring programs, better testing, and collaboration tools, and full dashboarding and workflow capabilities.</td>
</tr>
</tbody>
</table>

Includes:

- Analytics
- Unlimited script repository and versioning
- Cloud data processing only
- One automation process
- Limited workflow capabilities for remediation
- Limited dashboards

Includes:

- All the functionality of the Professional Edition, plus:
  - Unlimited robots for process automation
  - Unlimited script repository and versioning
  - Unlimited workflows
  - Unlimited visualizations and dashboards
  - On-premise and cloud data access support
  - Script development and testing environment
  - On-premise data analysis and reporting
What you should know

ADDED BENEFITS & RESOURCES
We offer you a number of additional free resources and benefits to help you grow and nurture your use of the platform. On-demand Galvanize Academy courses with CPE credits, a robust global community with regional user groups, help docs, and other great resources can all be accessed through the HighBond platform as part of your subscription.

ACL Robotics is a fully scalable solution, designed to grow with you. Build robots to support you in one or all of the following areas:

### How will you put the robots to work?
