

CONTINUITYBOND

Software to maintain effective business continuity programs

REDUCE RISK EXPOSURE & STRENGTHEN YOUR ABILITY TO PLAN FOR & RESPOND TO BUSINESS DISRUPTIONS.

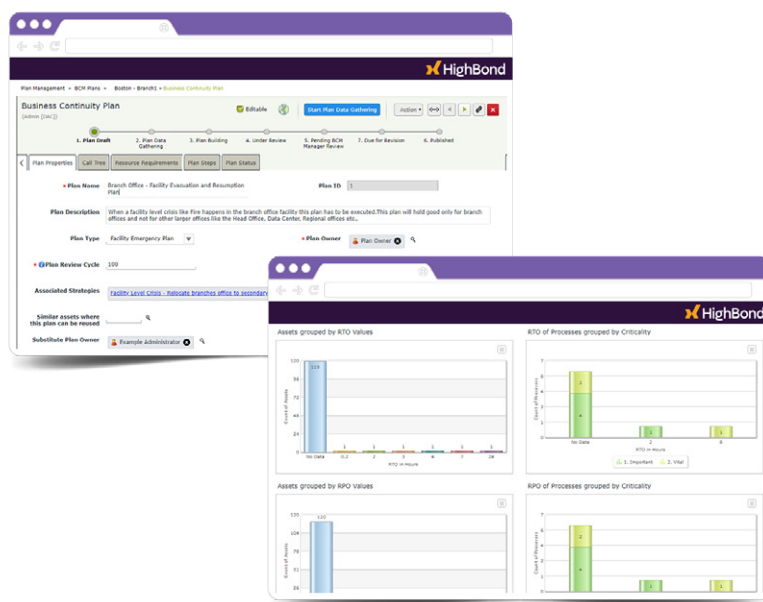

Unforeseen events can significantly impact your ability to conduct normal business operations. They can also lead to financial losses and reputational damage. In recent years, business continuity has become a critical component in business resiliency and a crucial component of effective risk management.

ContinuityBond helps you maintain an effective business continuity program that reduces risk exposure and strengthens your ability to plan for and respond to an event. With ContinuityBond you can:

- + Identify critical processes and assets
- + Automate disaster recovery testing and crisis management
- + Perform a business impact analysis
- + Make informed decisions and manage relevant activities with detailed reports and heatmaps
- + Accurately monitor the effectiveness of your program with in-depth analysis and reports
- + Optimize your program through meaningful metrics including Recovery Time Objective (RTO) and Recovery Point Objective (RPO).
- + Understand the upstream and downstream dependencies

Key features

- + Capture dependencies of business processes.
- + Overlay business processes with critical assets.
- + Automate Business Impact Assessments (BIA).
- + Develop effective recovery/restoration plans.
- + Manage BCM tests and plan exercises.
- + Detect discrepancies between desired objectives and actual capabilities.
- + Manage crisis with ease.
- + Link existing asset inventories to business continuity management plans.
